

The eclipse will amaze!

*The eclipse experience
is inspirational!*

Take a voyage of discovery with local teachers and students using sunlight, from the Sun to the Earth. Support your local schools as part of an educational program starting with the eclipse, August 21, 2017.

But it's just the beginning.

BUILD ON THE ECLIPSE EXPERIENCE

JOIN. GET READY for the eclipse. Then **BUILD** on the experience.

- Support educators in your area in bringing the eclipse to their students.
- Get involved with schools, libraries, museums and planetariums, after-school programs and more.
- Use the eclipse as a springboard to explore the wonders of the universe with all grades.
- Receive support from Astronomers Without Borders and partners.
- Share your knowledge with the youth in your area.

The Total Eclipse will amaze this summer...but it's just the beginning!

Build on the Eclipse Experience

Take a voyage of discovery with students in your area using sunlight.

- What are you doing for the solar eclipse on August 21, 2017?
- Will you be helping your community make the most of their view of the partial or total eclipse?
- Would you like to help with classrooms, afterschool programs, and summer camps?
- Will you be prepared to help your community view this inspirational event safely?
- Do you want to build on that experience by assisting educators beyond the eclipse?

Join us in a network of astronomers and educators connecting people through astronomy!

As part of the Astronomers Without Borders Eclipse Project, you will:

- **Assist educators** in various settings bring astronomy and the properties of light to their students, building on the inspirational experience of the eclipse;
- **Mentor educators** in astronomy and eclipses with solar viewing glasses and spectroscope kits;
- Be part of a **network** of education and astronomy experts engaging in discussion and ongoing support for educational activities;
- Take part in a virtual **culminating interactive event** showcasing your group's experiences, along with others across the country;

JOIN...GET READY for the Eclipse...Then BUILD on the experience.
